

SEALANT REMOVAL TOOL

Sealant Removal at its Best!

ABRASIVE

There is now a faster, safer, more effective way to remove aircraft sealants with minimal effect on paint, primer or aircraft metal. The new Sioux Aircraft Sealant Removal Tool runs at 800 RPM and is designed for use with the 3M™ SR Cutters. The 3M™ SR cutters included in the kit are a plastic rotary cutting tool with a 1/4 - 28 threaded steel mandrel.

The cutters thread directly into the output spindle on the drills and are ideal for close quarters applications. The Sioux Aircraft Sealant Removal Kits will eliminate the need to use chemical solvents, which raise health, safety and environmental concerns and are messy to clean up.

SEALANT REMOVAL TOOL

SPECIFICATIONS

Sealant Removal Tool

Model Number	Free Speed rpm	Weight		Length		Side to Center		Maximum Air Consumption		Sound Level dB(A)
		lb	kg	in.	mm	in.	mm	cfm	l/s
